PROFESSIONAL SUMMARY

QA Engineer with 1+ year of experience testing GRC and enterprise web applications across the Software Development Life Cycle (SDLC) and Software Testing Life Cycle (STLC). Experienced in functional, regression, smoke, exploratory, black-box, API, and cross-browser testing within Agile Scrum environments. Skilled in requirement analysis, test case design, defect reporting, Azure DevOps, and Postman. Worked closely with developers and stakeholders to identify, report, verify, and track defects through resolution while contributing to multiple production releases. Currently expanding automation testing skills using Python and Playwright and learning SQL for database validation.

PROFESSIONAL EXPERIENCE

Associate QA Engineer | *Cyberensic Pty. Ltd.* Sep 2025 - Present

Environment: GRC Web Application | Azure DevOps | REST APIs | Agile Scrum | Chrome | Firefox | Edge | Postman

- Performed functional, regression, smoke, exploratory, black-box, and User Acceptance Testing (UAT) across Risk, Policy, Compliance, and Service Provider modules.
- Designed, reviewed, and executed manual test cases based on business and functional requirements.
- Identified, reported, verified, and tracked defects in Azure DevOps by documenting clear reproduction steps, severity, priority, expected results, and actual results.
- Collaborated closely with developers to reproduce issues, verify fixes, and support regression testing before release.
- Performed CRUD API testing for the Policy module using Postman by validating request payloads, authentication, response status codes, and JSON responses.
- Created requirement traceability between requirements, test cases, defects, and releases while preparing requirement documentation and meeting minutes.
- Participated in Agile Scrum ceremonies including sprint planning, daily stand-ups, sprint reviews, and requirement discussions.
- Conducted cross-browser and responsive testing across Chrome, Firefox, and Edge.
- Performed smoke testing before UAT and production deployments to verify build stability.
- Contributed to multiple production release validation cycles to ensure application quality before deployment.

QA Trainee | *Cyberensic Pty. Ltd.* Jul 2025 - Aug 2025

- Assisted in manual test execution, defect reporting, and regression testing activities under senior QA guidance.
- Gained hands-on experience with SDLC, STLC, defect lifecycle, Agile Scrum, and Azure DevOps workflows.
- Participated in requirement analysis and QA documentation activities for enterprise web applications.

PROJECTS

Playwright UI Automation (Learning Project) | *Python, Playwright, Git*

- Developed UI automation scripts using Python and Playwright.
- Automated login and basic application workflows.
- Used Playwright locators and assertions to validate expected UI behavior.
- Executed automation scripts through the Playwright test runner.
- Managed project source code using Git and GitHub.

API Testing | *Postman, REST APIs, JSON*

- Performed CRUD API testing for the Policy module using Postman.
- Validated request payloads, authentication, response status codes, and JSON responses.
- Organized API requests into reusable Postman collections for testing.

TECHNICAL SKILLS

Testing
Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, Exploratory Testing, Black-Box Testing, User Acceptance Testing (UAT), Cross-Browser Testing, Test Case Design, Requirement Analysis, Requirement Traceability, Defect Lifecycle

API Testing
REST APIs, Postman, JSON, CRUD API Testing

Automation
Python, Playwright

Tools
Azure DevOps, Jira, Git, GitHub, Microsoft Excel

Methodologies
SDLC, STLC, Agile Scrum

Database
SQL (Learning)

EDUCATION

Bachelor of Engineering in Computer Engineering
Kantipur Engineering College, Tribhuvan University | Graduated: June 2025

CERTIFICATIONS

- Postman Student Expert
- AWS Cloud Foundational Fellowship (2024)
- Data Science with Python (30 Hours)

PROFESSIONAL DEVELOPMENT

- ISTQB CTFL (In Progress)
